Remarks about the scope of Local Meeting:

- Target participants are mainly the representatives of non-governmental organizations, or governmental organizations.
- Project results will be shared and promoted.
- Opportunity to collect feedback on the e-certificate program, the curriculum, and other major aspects of the project that are open for improvement.
- Stakeholders and participants will be informed about the utilization of and access to the outputs.
- Ensure a long-term utilization of the e-certificate program, course materials, videos and mobile application.
- The feedback will develop strategies for the improvement of the e-certificate program, curriculum or aspects and other outputs.

The Project: Lifelong Learning for Sustainability: From campus to daily life (LEAF): 2023-2-TR01-KA220-HED-000175969

Partners:

Co-funded by
the European Union

- Coordinator: Eskişehir Technical University (ESTÜ) (Türkiye – Eskişehir)
- Lusofona University (LU) (Portugal)
- AIJU (Spain- Asociacion De Investigacion De La Industria Del Juguete Conexas Y Afines)

Goals and Objectives:

- To create a knowledge and awareness-based framework for internalizing sustainability-related issues and regulating daily habits/life practices for sustainability and climate change mitigation/adaptation implementations
- To develop an E-Certificate training program on sustainability issues, also embracing basic fields of information/practices which are significant to understand, mitigate and adapt to the impacts of climate change.

Work Packages:

- Sustainability E-Certificate Program: Development of training materials (15 courses), Development of 15 video materials.
- Training program with 300 participants providing an international certificate (Gold, Silver and Bronze).
- Development of a Mobile Application with daily tips and Quiz Bank.
- Dissemination: (Workshop, Local Meetings, social media)
